

SYLLABUS

Niveau d'étude : Licence 1 (parcours international)

ECTS : 5

Semestre : 2

Cours : **Macroeconomics 1**

CM : 30 hours

Enseignant : Boris Solier

TD : 15 hours

E-mail : boris.solier@umontpellier.fr

Modalité de contrôle des connaissances : final exam (1h30): MCQ test (50%) + exercices (50%)

Course objectives

The course presents the two main approaches to macroeconomic analysis: the classical approach and the Keynesian approach.

The objective is to provide students with the theoretical foundations on which monetary and fiscal economic policies are based.

Content

1. Introduction to macroeconomics
2. The classical model
3. The consumption and investment functions
4. The effective demand and multipliers
5. The IS-LM model and policy
