ENGLISH VOCABULARY

The YEAR in English

Woodward
ENGLISH

Years

Years are normally divided into two parts.

1984

nineteen eighty-four

1066 *ten sixty-six*
1652 *sixteen fifty-two*
1941 *nineteen forty-one*
2017 *twenty seventeen*

When a year ends in a number between 01 and 09, then that last part is pronounced as the name of the letter O + number.

1709 *seventeen O nine*
1901 *nineteen O one*

When a year ends in 00 (e.g. 1600), then the year is said as the digits before 00, and then hundred.

1300 *thirteen hundred*
1800 *eighteen hundred*

2000 - 2010

For the year 2000 you say (the year) **two thousand.**

For the years 2001 to 2010, we normally say **two thousand and + number.**

2001 *two thousand and one*
2005 *two thousand and five*
2008 *two thousand and eight*

After 2010

For the first years after 2010, you may hear two different versions.

2012 *two thousand and twelve*
2012 *twenty twelve*

They are both used and correct. Now, we continue to say the year divided into two parts as before.
