WARMING UP

What do you need to do first when you have to check vital signs?

LISTENING COMPREHENSION

Checking vital signs are essential nursing skills that registered nurses perform routinely. The vital signs assessment helps the nurse develop a picture of how well the people is doing or progressing in treatment.

This video will demonstrate a nurse checking vital signs which include the 6 vital signs.

Watch the video and answer the questions below first.

VITAL SIGNS – EXPLANATION TO PATIENTS

How would you say the following sentences in English?

D’abord, je vais prendre votre température. Je vais mettre le thermomètre dans votre oreille. Tournez la tête, s’il vous plaît. Il ne faut attendre que 10 secondes pour les résultats. Bon, votre température est aux normes.

Maintenant, je vais prendre votre pouls. Donnez-moi votre main, s’il vous plaît. Votre pouls est un peu rapide ce matin.

Et maintenant, je vais vous prendre la tension. Je vois que vous avez des antécédents d’hypertension. Le médecin vous a prescrit un régime sans sel. Bon, votre tension est 12 sur 8 – parfait !!

Détendez-vous une minute pendant que je prends votre fréquence respiratoire. Respirez normalement. Très bien. Merci.

Appelez-moi si vous avez besoin de quelque chose. Bonne journée.
